Chamber Seminar: “Business & Golf: The right approach can put you on the leader board”

Tri-Cities, WA – The Tri-City Regional Chamber of Commerce invites the business community to attend their next Business Development University (BDU) scheduled for July 21, 2009. The topic for July’s BDU is “Business & Golf: The right approach can put you on the reader board.”

Many business deals are done on the golf course. Are you missing out on these opportunities because you aren’t comfortable with your golf game? Have you been invited to play in a golf tournament, but aren’t quite sure what to do? Learning how to golf can be intimidating. This seminar will teach you how golf is used to build business relationships. It will also address the rules of the game, terminology, golf etiquette and the different forms of play.

“Business Development University is an umbrella under which we are able to offer workshops and seminars to the community. 85 percent of our members employ less than 15 people and therefore most of the topics in 2009 will be geared towards the small business owners, states Lori Mattson, President and CEO of the Tri-City Regional Chamber. Our members told us what topics they were interested in, so that’s what we are delivering.”

Those interested in attending this seminar should call the Chamber office at 736.0510 or email info@tricityregionalchamber.com. Reservations are required.
